Summary

Application Developer specializing in SAP ABAP. Familiar with ALV, Smart Forms, Adobe Forms, Data Dictionary and proactive monitoring. Certified SAP Associate - Back-End Developer-ABAP Cloud. Eager to learn and contribute to innovative projects that enhance business processes and drive efficiency.

Technical Skills

SAP ABAP | C | Java | HTML | CSS | JavaScript | MySQL | PHP | Python | Firebase

Experience

February 2024 - Present

Application Developer | *SAP ABAP*

IBM, Bengaluru, India

- Engaged in proactive monitoring of SAP systems to ensure optimal performance and identify potential issues before they impact operations.

- Developed a program to process multiple sheets of data from Excel based on client requirements, streamlining data handling and improving overall efficiency.

- Built a unified OData service for user access issues (locks, password expiry) with dynamic logic, BAPI integration, and relative responses.

- Developed an OData service to fetch transport request details, including tasks, object names, and descriptions, providing a unified view for users.

- Utilized SAP ABAP, including ALV, Adobe Forms, and ABAP Objects, to design and implement custom solutions that enhance business processes.
